As a recent Master of Computer Application graduate, I am actively seeking an internship opportunity within any industry where I can effectively apply my comprehensive knowledge in computer science. I am eager to contribute my technical expertise, gain practical experience.

EXPERIENCES

ONLINE BAKERY SHOP (FINAL YEAR PROJECT)

Developed an online bakery shop where we can purchase plenty of bakery items such as placing an order, updating cart, making payment. This platform is build using .NET framework for the frontend, C# for the backend and MS SQL server for the database data storage. Designed an attractive & responsive user interface using Bootstrap. Where a user can create his/her account to purchase the product from the web app. It includes the secure payment functionality, cart functionality
Add items to cart and much more. This platform has an admin panel in which an admin can login to his admin account from where he/she can manage its products, users and cake/bread providers.

RECIPE GENERATOR APPLICATION USING CHATGPT API

- Developed a recipe generator app using chat gpt API For personalised recipe suggestion.
- Integrated Chap GPT api to enable the dynamic interface conversation for user input.

PORTFOLIO WEBSITE

Utilize my online portfolio at My-Portfolio to explore a comprehensive showcase of skills and accomplishment. It is built using bootstrap, JavaScript, html and custom CSS.

EDUCATION

MASTER OF COMPUTER APPLICATIONS

G.H Patel Post Graduate Department of Computer Science & Technology
JUNE 2024

BECHELOR OF COMMERCE
